**MEMORANDUM**

**TO:** Select Local Health Departments

**FROM:** Beth Rowe-West, RN, BSN, Head  
Immunization Branch

**SUBJECT:** Reporting requirements for ARRA school flu clinic project

The purpose of this memo is to remind participating counties about the upcoming deadline for reporting requirements for the American Recovery Reinvestment Act (ARRA) project to increase the number of school-aged children vaccinated with seasonal influenza vaccine.

The Immunization Branch is required to report quarterly to the Centers for Disease Control on this project. Each health department must complete the reporting form and submit information to the Immunization Branch on the following dates:

- March 31, 2010
- Final reports are due by July 1, 2010

The reporting form is included here and can be found on our website at [www.immunizenc.com](http://www.immunizenc.com). Forms must be returned by COB on the dates above by fax to the attention of Kristen Carroll at 919-870-4824 or by email to [Kristen.Carroll@dhhs.nc.gov](mailto:Kristen.Carroll@dhhs.nc.gov). A few important notes about the reporting form:

- Please include as much information as you have on the children you vaccinated. You may not have all of the information and some fields may be blank, but please include as much as you can.
- Under the budget section, please include all information about personnel expenses. Report any money spent from the ARRA funds for retaining positions, hiring temporary staff (either part or full time); or contracting with any nursing agencies, etc for staff time. We need the number of positions newly created and the number retained, by job title, and the total number of hours worked for that time period.
- We realize some counties may be finished with their project and their report submitted in December 2009 included all data about who was vaccinated. You only need to report information that has not been reported thus far. If all funds have been spent, please report that as well. This quarter and the next quarter reports may only include financial information, and/or very little data on who was vaccinated.

Please note that each county has until June 30<sup>th</sup> to spend their ARRA funds. If your project is complete, you can use these funds to purchase items that will contribute to and/or enhance your immunization program. This may include vaccination supplies such as syringes, bandaids, etc; paper for printing permission forms; computers to help with NCIR; etc. If you have questions, please call or email the Branch to determine if the expense is allowable under ARRA.

We will send another reminder when the next report is due. If you have questions regarding reporting or the project please call Kristen Carroll at the Immunization Branch Central Office at 919-707-5596.
