

Subject: VFC Eligibility Verification

Effective Date: June 11, 2008

Revised: February 22, 2012

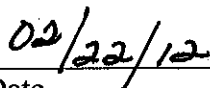

Policy:

The VFC program manual states that “screening to determine a child’s eligibility to receive vaccines through the VFC program must take place with each immunization visit...”

It is the policy of the Immunization Branch that the recording of parent report of VFC eligibility in the NCIR, and validation by asking the parent on each visit, meets the provider’s obligation to collect VFC eligibility information at each visit.
