

Subject: NCIR Date Estimated Feature

Effective: June 1, 2007

Policy: The date estimated feature in NCIR is for use with out of state certificates of immunization where only a month and year of vaccination are provided.

When month/year dates are entered in to the NCIR, the last day of the month given should be listed as the day. The date estimated box must be checked as well.

Reference: G.S. 130A-154(b)

Except as otherwise provided in this subsection, a person who received immunizations in a state other than North Carolina shall present an official certificate or record of immunization to the child care facility, school (K-12), or college or university. This certificate or record shall state the person's name, address, date of birth, and sex; the type and number of doses of administered vaccine; the dates of the first MMR and the last DTP and polio; the name and address of the physician or local health department administering the required immunization; and other relevant information required by the Commission.
