IPV		AFGHAN REFUGEES	<b><u>Enrolled Providers Serving Evacuees from Afghanistan:</u></b> <ul style="list-style-type: none"> <li>❖ One dose of IPV for all persons aged &gt;6 weeks of age (including adults), ideally during the first 7 days of U.S. entry (unless medically contraindicated), and within 12 months of travel to the United States. For children, this initial dose should be followed by the standard ACIP schedule with doses at 2, 4, and 6-18 months, and 4-6 years. Adults do not need to receive another dose after the initial dose.</li> <li>❖ See CDC Special Considerations  <a href="https://www.cdc.gov/immigrantrefugeehealth/guidelines/domestic/immunizations-guidelines.html">https://www.cdc.gov/immigrantrefugeehealth/guidelines/domestic/immunizations-guidelines.html</a> </li> </ul>
MMR		AFGHAN REFUGEES	<b><u>Enrolled Providers Serving Evacuees from Afghanistan:</u></b> <ul style="list-style-type: none"> <li>❖ One dose of MMR vaccine for all persons aged &gt;6 months to 64 years (born in or after 1957, and unless medically contraindicated), ideally within 7 days of U.S. entry. A first MMR dose administered between 6-11 months should be followed by the standard ACIP schedule with doses at 12-15 months and 4-6 years.</li> <li>❖ See CDC Special Considerations  <a href="https://www.cdc.gov/immigrantrefugeehealth/guidelines/domestic/immunizations-guidelines.html">https://www.cdc.gov/immigrantrefugeehealth/guidelines/domestic/immunizations-guidelines.html</a> </li> </ul>

**Key Points:**

- For routine vaccination, see the full *Coverage Criteria* for eligibility requirements.
- Only one dose is available as part of these statewide initiatives.
- Vaccine availability is time limited. The NCIP will update all VFC-enrolled providers when expansion campaigns end.
