You can use the SEARCH BAR to search for a record. Clicking on column header will sort by the column.

Adding COVID-19 Vaccine Inventory
Step 1 of 6: Navigate to the Vaccine Inventory tab

When you PHYSICALLY RECEIVE a COVID-19 vaccine Inventory shipment, you will want to ADD THE INVENTORY to your location’s overall COVID-19 vaccine inventory. Processing your COVID-19 vaccine shipments correctly will ensure that your COVID-19 vaccine levels are accurate for your reporting.

This process DOES NOT include processing inbound COVID-19 vaccine inventory transfers. Please see the next section for steps on how to process inbound transfers.

1. At the top of your home page, locate the tab VACCINE INVENTORY
2. Click VACCINE INVENTORY
3. After clicking VACCINE INVENTORY, you will be directed to the VACCINE INVENTORY TAB
Step 2 of 6: Create a New Vaccine Inventory Record

At the top of the page, you will see the different actions you can take to manage your COVID-19 vaccine inventory. This will be your main working page for ensuring that your inventory levels are accurate. See the VACCINE INVENTORY WASTAGE, RETURNS & TRANSFERS TRAINING GUIDE to learn more about COVID-19 vaccine Wastage, Returns and redistribution / transfers.

1. Click **ADD**
2. After clicking add, you will be prompted to **PROVIDE ADDITIONAL VACCINE DETAILS**

- Change the view to “All Vaccine Inventories” and click the THUMBNAIL icon to PIN your favorite list view.
Step 3 of 6: Enter Vaccine Inventory Information

The NEW VACCINE INVENTORY PAGE will appear.

To search for a picklist value, you need to enter at least THREE CHARACTERS.

1. Populate all required VACCINE INVENTORY FIELDS
   - Product
   - Total Doses
   - Lot #
   - Vaccine Inventory Name (editable)
   - Serial Number (not required field in the event you cannot locate it)
   - Expiration Date
   - Account (when entering your account in the Account field, do not select New Account, start typing your location and it should appear)

2. Continue to SHIPMENT DETAILS

Tips

When adding Inventory into CVMS, we recommend including the Lot #’s in the Inventory Name to help staff that are administering vaccines to recipients to more easily choose the correct Inventory record.

Shipments from DIFFERENT LOT NUMBERS must be entered as separate Inventory records.
You can now enter the remaining Vaccine Shipment record details.

Do **NOT** reduce the **TOTAL DOSES AMOUNT** if you have wastage, spoilage, or plan to redistribute inventory.

This process **MUST** be recorded separately as **INVENTORY DEPRECIATION**.

1. Select a **SHIPMENT RECORD**
2. If you cannot locate the Shipment record, **CHECK the UNABLE TO LOCATE SHIPMENT RECORD box**
3. Before saving, **REVIEW** all entered details
4. Click **SAVE**
Step 5 of 6: Review the Vaccine Inventory Record

After clicking save, you will be directed to the VACCINE INVENTORY RECORD. Your COVID-19 vaccine inventory has now been updated to reflect this additional inventory.
